

A2Z Vehicle Pre-Purchase Inspection Summary Report 2008 BMW 3 SERIES 320 I M SPORT

It is a summarised report on a vehicle safety as well as cosmetic and mechanical condition.

No.	Description	Explanation	Advisory / Comments	Good	Fair	Poor	Needs Repair
1	Safety	Seatbelts / Horn / AirBags (SRS) / Crash damage / Brake system / Other Safety Concerns	No evidence of any structural damage.				
2	Interior	Seats / Upholstery / Carpets / Dashboard / Boot Compartment	Kept clean, no wear and tear. Couple of small stains on the P/ Seat (very minor, can be easily washed out)				
3	Instrument Cluster and Interior Electrics	Warning Lights / Gauges / Electric Instruments (ex. electric windows)	Warning light ON for the tyre inflation control (sensor replacement required)				
4	Exterior	Body Paint and Clear Coat / Present or Previous Body Damage / Window Glass / Corrosion	P/S quarter panel has evidence of a minor side swipe (scrapped). The edge of the D/Door has minor marks from opening into other cars or walls. Typical for coupe (large doors)				
5	Lights	Lights Operation and Condition	P/S/F Sidelight Isn't working ("angel" light bulb needs replacing, not regular bulb) https://www.youtube.com/watch?v=72nuNNblixE				
6	Engine & engine bay	Engine & Engine Bay Condition / Fluid Levels / Oil leaks					
7	Tyres & Wheels	Wheel Rims and Tyre Tread (Minimum tyre tread 1.6mm)	Minor kerb rash on both front alloy wheels. Front tyres have about 60% of live left in them. Rear 80%.				
8	Under Body	Corrosion / Exhaust System / Brake Pipes/ Drive Shafts	Evidence of corrosion on the exhaust system. However, it is consistent with the age and the mileage of the vehicle.				
9	Brake system	Brake pads / Brake Discs / Brake Flexible Hoses & Pipes	Rear brake pads need changing. As a result of that hand brake performance is poor.				
10	Testdrive - Road-test / Handling / Performance	Tracking Issues / Brakes / Engine Performance / Wheel Bearings	Nice steady pull from the engine. Slight noise from the wide tyres (normal).				
11	Suspension	Visible balljoints / Shock Absorbers / CV Joints & Boots / Mounts	No concerns				
12	Transmission	Clutch & Gearbox Performance	No concerns				
	Overall vehical condition taking in consideration age and mileage of a vehicle:		It seems that the car has been well maintained by its 2 previous owners. Its overall condition is good, and it appears to be consistent with its age and the mileage. However, there are 4 issues which are going to have to be addressed: 1 - replace P/S Sidelight bulb. 2 - Replace tyre pressure sensor. 3 - Replace rear brake pads. 4 - fix / replace P/S headlight washer.
